Together, we're going places...

# Introducing the new Miami Range 740S & 740D

Miami 740D

Miami 740D

Miami 740S

**Britain's leading manufacturer of luxury motorhomes has chosen the increasingly popular Renault Master to perfectly compliment the exciting range of Auto-Trail motorhomes.**

It is often said that customer choice is just one of the many reasons Auto-Trail remains a popular brand for the ever growing number of motorhome owners within the UK.

This successful approach of providing maximum choice continues within the new Miami range.

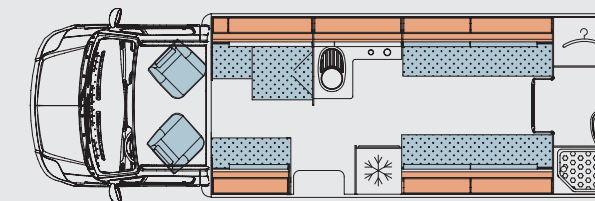

Housed within its distinctive sleek and modern aerodynamic GRP exterior, is an interior that once again sets completely new standards for motorhomes. The new Miami range features many designs and concepts similar to those originated in the Award winning Grande Frontier A Class model.

This new range is available in two innovative new layouts.

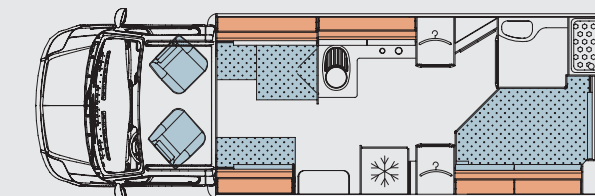

Miami 740D

# Layouts

The Miami 740S has a forward lounge and L shaped centre kitchen. Towards the rear are twin single beds each incorporating a new feature of individual rake adjustment and across the rear is the full width en-suite area with a separate shower cubicle.

The Miami 740D with an identical forward lounge and L shaped centre kitchen area; to the rear are twin single wardrobes and a large permanent double bed and a fully fitted en-suite area together with a separate shower cubicle alongside the master bedroom.

## SE Pack

Customers can also specify the ever popular SE pack; this factory fitted pack provides many additional features and benefits at an unbelievable special price of only **£799 Inc Vat.**

- Smartnav satellite navigation
- Flip down flat screen built in colour TV monitor
- 'Freeview' multi channel TV/radio receiver
- Upgraded Radio/Cd with DVD and Mp3 player
- Colour infra red reversing camera
- Recessed 4 metre awning/sun canopy

Not forgetting...a special edition 'Auto-Trail' umbrella

Miami 740D

Each model is offered with a choice of direct common rail dCi diesel power units, engines which are designed to keep fuel consumption to a minimum yet the all important torque, to a maximum.

Whether you choose the standard 2.5 litre dCi 120, 115bhp or the (optional cost) larger 3.0 litre dCi 140, 135bhp, both are fitted with a 6 speed gearbox. Alternatively, should you prefer the ease of automatic transmission, the 2.5 dCi 120 version can also be specially ordered with Renault's much admired (optional cost) 'Quickshift6' sequential change, semi automatic gearbox.

The Miami models boast levels of comfort, safety and equipment which are very similar to specifications found in a modern family car. Within the Miami models you will discover one of the most spacious, luxurious, yet practical cabins available within any motorhome. As you would expect space and light is further maximised thanks to the large double glazed panoramic roof light, this also features a sun shield and a night blind. Not forgetting its many useful all important storage pockets, we feel all modern motorhome needs have been fully catered for - there are even cup holders and a document clip!

Maximum comfort is a standard feature found in all Auto-Trail models and the Miami is no exception; both driver and passenger seats have each been upgraded with

luxury ISRI seats and twin armrests have been specified to ensure that Miami customers receive only the very best. With special swivel bases fitted to both cab seats, once turned, the whole lounge area quickly transforms to provide a spacious and sociable area for you, your family and friends. At night time, the lounge area easily converts to a double bed (940mm x 1230mm).

Moving from the front towards the centre of the motorhome is the kitchen area - this can only be described as simply a chef's dream; the all important generous worktop surface is maintained thanks once again to Auto-Trail's innovative design team. The kitchen worktop slides simply to expose a deep stainless steel sink, a full glass fronted cooker with 3 x gas burners and 1 x 230v hot plate and a high level fridge with integral full width freezer completes the galley area.

Interior lighting has always been a special feature within all Auto-Trail models, the Miami, once again is no different. Over locker 'aircraft style' lights illuminate the whole living areas, these are complimented by twin 230v mains lights which are dimmer switch controlled. For more direct individual lighting, brushed steel 12v directional reading lights are strategically positioned to give maximum light.

For added safety, passengers travelling in the rear have the benefit of double forward facing seats, each are fitted with fully approved 3 point seat belts.

Whether its headlight beams, which are wide and powerful, or Driver's Airbag, ABS (Anti lock braking) or EBD (Electronic Brake Distribution), you will know that these special features enhance your safety and create added owner confidence.

The Miami range also features the Eberspacher diesel powered blown air central heating system. Hot water is on tap thanks to the Truma duel fuel boiler which operates from gas and 230v electric.

Whilst our design and engineering team work to constantly exceed the expectations of our customers, the important issue of safety is also addressed. Each and every Auto-Trail motorhome is fully compliant with Quality Standard ISO 9002 and the latest European standards governing motorhome construction and use.

Therefore, whether you choose the Miami 740s with its twin single beds (2 x 1855mm x 730mm) or the 740D with its large double bed (1945mm x 1260mm), we are sure that they will provide you with many years of pleasure.

Waste Water Tank Capacity	50 ltr (13 gal)	50 ltr (13 gal)
Dedicated Passenger Seats (Including Driver)	4	4

### Important

When adding extra equipment, it is important that individual axle loading weights or the Maximum Authorised Weight is not exceeded. This would not only automatically invalidate any warranties, but also it could affect your safety and the handling of the vehicle. An overloaded vehicle could lead to prosecution. If you are unclear or need any further guidance as to any of the technical aspects in the operation and driving of your new Auto-Trail motorhome, please consult your supplying dealer prior to driving your vehicle on the public highway.

## Extended Warranty Included

Auto-Trail have endeavoured to convey to our customers all the benefits which are available within the industry. With this in mind we have extended the normal manufacturers warranty to include cover for major items for an extra period, giving peace of mind for a total of 36 months. Full details are outlined in a policy document. Please contact your official Auto-Trail stockist for further information.

## AA Cover Included

Your new Auto-Trail Motorhome is covered by the AA for the first 12 months. A membership card will show a freephone breakdown assistance telephone number. In the event of a breakdown simply telephone the AA operations centre and their staff will provide assistance and explain the service provided in more detail.

## Auto Trail Owners Club

For more information and details of how owners of new Auto-Trail Motorhomes can enjoy a period of free ATOC membership, please contact:-

Mike Johnson,  
273 Barrowby Road, Grantham,  
Lincolnshire NG31 8NR (enclosing a SAE)
